

Brighten up with Florida Power & Light Company's **Street Lighting Program**

Illuminate your neighborhood

If street lighting in your area is insufficient or you need lighting for a new subdivision, FPL can help.

Our street lighting program offers:

- » Options for public and private streets to increase visibility from dusk to dawn
- » Installation of street light fixtures on FPL poles
- » Special poles and lighting fixtures for locations served by underground FPL facilities

After we install the lights, we will own and maintain the lighting system and simply charge you monthly for maintenance and electric service. It's easy and hassle-free.*

Visit [FPL.com/newstreetlights](https://www.fpl.com/newstreetlights) for more information and to get started on your street light project.

Fixtures and poles to meet your needs
