### Disclaimers

The issuance of a rebate by Gulf Power Company under the Program shall not be considered or relied upon by the customer to be confirmation that: (i) the customer has selected the proper HVAC system; and/or (ii) that any of the underlying work performed by the Contractor was done properly pursuant to the manufacturer recommendations and specifications, building codes, other applicable laws, industry standards or individual contract requirements. Gulf Power Company does not participate in or approve the selection of the HVAC system and Gulf Power Company does not manage or provide oversight of the work performed by the Contractor selected by the customer. It is the sole responsibility of the customer to investigate and select an HVAC system that is appropriate for the specific application, manage the Contractor they select to perform the work and to take the necessary precautions they deem prudent to ensure the equipment and work meets their expectations.

Gulf Power Company does not provide any supervision, control or instructions to Contractor regarding the means and methods for performing any work that might be eligible for a rebate. This is entirely the responsibility of the Contractor and likewise, the sole responsibility of the customer to manage and inspect the work performed by the Contractor.
